12.01 Additional FTPs to Manage Appellate Unit Caseload: This decision unit provides for 3.0 additional FTPs to reduce existing staff caseload in the Appellate Unit in order to conform with national standards. The current caseload carried by State Appellate Public Defender attorneys is more than twice the amount recommended by national standards. The standards were created, and are used, to insure that excessive caseloads do not prevent attorneys from meeting the 6th Amendment requirement of effective counsel.

12.02 Additional FTPs to Manage Capital Unit Caseload: This decision unit provides an additional 3.0 FTPs for the Capital Litigation Unit to reduce the current caseload. The Capital Litigation Unit currently carries four cases with two more individuals recently being added and the expectation that another will be receiving the death penalty in February. With the potential for seven clients, the Capital Litigation Unit is over twice the national average necessary to comply with the 6th Amendment requirement of effective assistance of counsel.
